LAMB TO PRESENT PICTURE PROPOSAL TO BUSINESS MEN

WOULD MAKE FIVE HUNDRED
FEET OF FILM DEPICTING THE
VIEWS OF CORPUS CHRISTI

Proposal Will be Discussed by Business
Men Who Will Meet This Morning
at Ten O'Clock at the Commercial Club.

The Commercial Club voted with dis-
agreement upon the proposal of the Pictures
Feature Film Company to make five
hundred feet of pictures in Corpus
Christi next week. It is part of the
plan "Texas As It Is Today" that
according to the promoters will be shown
throughout the South and East.

O. W. Lamb, the director of the com-
pany, is in the city from Dallas and
yesterday had a conference with Pres-
ident Lester. Included in the Corpo-
ratus pictures would be motion pic-
tures of the Nueces and Pecos Rivers,
canyons, oil fields, railroads, streets
and streets scenes, courthouse and
seats at the Gulf Coast Exposition.
The pictures of the community will be
submitted to business men this morning
at 10 o'clock at the Commercial Club.

Mr. Lamb in telling of the plan for
the state film Friday said:

"Texas has 15 people per square mile,
101, New York, 127, Texas
has more people. It takes
more about 15 per square mile. Texas
will be shown in motion pictures thru-
out the states. Pictures best of the
success pictures showing "Texas As It
Is Today," its factories, houses and
residences, schools, farms, ranches,
mines, cattle, sheep, hogs, chickens,
steers, goat, oil gas, trees, water fronts,
minerals, fruit, oranges, palms and
thousands of views that will be exciting
to the northern farmer and

people.

City and taxes will be incurred at
anytime during the present month for
the payment of one dollar.

To vote in the elections of 1915 will probably be
a new privilege for many electors

voting with the county preliminary

election to be held during February

and ending with the general election of

November 5 will be held. Ballot re-

ceives from both the city and county

and the latter will be held on November 5.

Today the factories, houses and

residences, schools, farms, ranches,

mines, cattle, sheep, hogs, chickens,

steers, goat, oil gas, trees, water fronts,

minerals, fruit, oranges, palms and

thousands of views that will be exciting

to the northern farmer and

people.

The hundred and fifty countries will

be visited in Texas. The State

will not pay for the making of the film

but each country will pay according

to what they want shown.

Each country is limited to 280 feet.

Films will be shown thru the seven ports to

the Texas Library and Historical Com-

munity Archival Department, Austin,

Texas.

A percentage of all money collected

by us will be deposited with the State

to insure the showing of "Texas As It

Is Today" films. Good percentage will

be paid to us as showing is com-

pleted.
